

Also available

Cordless Blower series

UB001G (Blower function only)
Powerful blowing force (Max 17N)

UB003G
Blowing and vacuuming performance comparable to 28cc-class engine models.

UB005G
Lightweight yet powerful for professional use.

Accessories (optional)

Cushion belt complete set

Waist belt for reduced hand reaction force and improved comfort.
Part No. 1917R2-6

Battery holder set

A spare battery holder that attaches to the Cushion belt complete set.
Part No. 1917R0-0

Cushion belt complete set Battery holder set

UB004GZ

Cordless Backpack Blower

40Vmax

*Recommended batteries
4.0Ah (F), 5.0Ah, 8.0Ah, 8.0Ah (H)

Max Air Volume	Low: 13.8 m ³ /min High: 19.1 m ³ /min
Max Air Velocity	96.0 m/s
Max Blowing Force	Low: 17 N High: 32 N with BL4080H Low: 17 N High: 23 N with BL4080F
Dimensions (L x W x H)	242 x 585 x 522 mm (9-1/2 x 23 x 20-1/2")
Net Weight	8.8 kg (19.4 lbs.)
Continuous Usage Time (approx.)	Low: 38 min High: 14 min with BL4080H x2 Max blowing force with end nozzle

Standard Equipment:
End Nozzle, Flat Nozzle, Pipe Support Belt Complete

* GZ: Without Charger & Battery

UB004G

Powerful blowing across wide areas — lightweight design with excellent maneuverability

Lightweight at **8.8 kg** With BL4080H x2
40% lighter Compared with our previous model

Backpack style
The backpack design reduces recoil and arm fatigue.

Adjustable air volume from gentle breeze to strong wind

One-touch airflow lock via push-button cruise control
Press the button at any trigger position to hold the airflow level.

Large control display with high-brightness LEDs for excellent visibility.
The photo is for illustrative purpose.

Mode switch button provides tactile feedback for quick switching.
Low mode High mode

Clear click feedback even with gloves

Dual-battery system
runs on one battery at a time.

Stepless adjustment within a 250mm range

Nozzles for different applications

End nozzle 71
For blowing away fallen leaves and heavy debris

Flat nozzle
Concentrated horizontal airflow toward the ground for wet fallen leaves and heavier debris

Grip position adjustment
Adjustable to suit the operator and working posture — 180 mm front-to-rear and 90° to the left and right.

BL MOTOR
Equipped with a high-power brushless motor

Comfortable shoulder harness
Optimal materials and shape help reduce fatigue, and a mesh construction improves breathability.

A thick, breathable pad distributes weight to help reduce fatigue.

Large air-intake
helps reduce blockage from fallen leaves and other debris.

Compact storage
One-touch buckle secures the nozzle quickly and easily.
