For Cleaning VC011G

Low noise level
mode: 4 / 3 / 2 / 1
68 / 64 / 59 / 55 dB(A)

Continuous run time on full battery charge
mode: 4 / 3 / 2 / 1
40 / 75 / 130 / 260 min
With two BL4050F batteries

Automatic filter cleaning mechanism

The board with springs located beneath the dust bag rocks due to walking vibration to remove dust from the bag, reducing filter clogging to maintain suction power.

Anti-forgetting mechanism for dust bag installation

When dust bag is not installed in the machine, the front cover won't close completely to minimize dust ingress.

VC011G

Telescopic pipe with lock

- A locking mechanism has been added to the connection of bending pipe and this pipe to prevent from falling off.
- Available in lightweight plastic and rigid aluminum

Locking mechanism

Telescoping button

The lower profile makes it easier to clean under furnitures.

48 mm

Hard floor/carpet mode switchable

For hard floor For carpet

HEPA filter

HEPA Filter is used as the main filter to capture very fine particles effectively.

Able to capture 99.97% of particles as small as 0.3-1 μm

BL MOTOR

Powered by 40Vmax XGT Li-ion battery (two in parallel or one)

Controller

Suction power mode pre-selection (with mode memory function)

- Suction power mode can be selected before the machine is turned on.
- Suction power mode can be checked by Switch box at hand.
- The cleaner can memorize the previous suction power mode and resume vacuuming in the same mode as last time user turned off for user convenience.

LED job light (VC011G only)

convenient for operation in dark job sites.

Improvements for more comfortable backpacking experience

Redesigned waist belt optimally holds the weight of the machine body.

Thicker cushions of shoulder and waist belts for reduced burden on user's body.

Chest belt position is vertically adjustable to suit the user's size.
